FLUFFY-TEN

Data Sheet - PL-IM45-021

Description:

Finishing softener with anti felting effect and innovative and persistent micro-encapsulated fragrance.

- Concentrated softener for incomparable softness
- Anti felting system: to protect and nourish wool fibers
- Perfume Microcaps: innovative micro-encapsulated fragrance with long-lasting effect, resistant to drying and capable of perfume the garments even after days
- With Lanolina
- Also suitable for the WET CLEANING system

Directions for use:

FLUFFY-TEN is used in the last rinse, with a moderate level of water. Its formulation prevents wool from the effect of felting and, thanks to special additives gives a long-lasting fragrance.
